2020	ST. Thomas College Matara (G.C.E Advanced level)

💼 PROFESSIONAL EXPERIENCE

May 2024	• Intern Software Engineer- 4A HOLDINGS (Pvt) Ltd Role Played: Associated with front-end and back-end development in web applications and others. Technologies Used: HTML,CSS,JS,PHP,MySQL, Jira,Clickup GitHub, Laravel, and SCSS.

💻 PROJECTS

E-Commerce-Website

As the team leader and developer, I led the creation of an e-commerce platform using HTML, CSS, JavaScript, PHP, and SQL Server DB. it enables customers to browse and purchase products. Drivers manage deliveries, while sellers add and manage products and view order details. Admins oversee the entire system, ensuring smooth operations and efficient management.

Website For Ice Cream-Company

developed using HTML, CSS, JS, and PHP, deployed on a WAMP server with SQL Server for database management. It features separate platforms for customers and administrators, enabling CRUD

operations. customers can browse, book, and manage ice cream orders, while admins oversee inventory, orders, and user management.

Restaurant Management System

Developed a restaurant management system using C# and .NET framework. The system features an intuitive interface for staff to efficiently manage orders, inventory, and customer data. Utilizing SQL Server for data storage .NET Framework C# SQL (Relational Database)

Pizza Shop (Spring Boot With Java And React)
Using Java with Spring Boot and React.js, coupled with SQL Server for database management. Led as project manager and backend developer, creating a RESTful application facilitating CRUD operations for admin and customer platforms. Developed a dynamic system enabling customers to browse, customize, and place pizza orders, while staff manage inventory and oversee operations.

University Management app (Android Studio)
developed using Java with Android Studio, integrating SQLite for offline storage and Firebase Fire store for real-time data synchronization. It offers features such as user authentication, course management, view branch locations, student registration, and profile management.
